It aside the rule governing commit ority wesemed to be the policy of the maj nitude henever any matter was of a magiderati requiring debate and careful consed anon that this rule should be suspended and become mugatory. It matters not that the measure involved the business relations of all the people in this mighty nation; it matters not that the measure involved the business relations of all the people in this mighty nation; it matters not that it involved commercial relations with all the countries of the world; that it involved one of the greatest political issues of the time; that it fastened a system upon the people for years—the majority determined upon a measure and it was impatient with debate. He protested against the resolutions as un-Americau, unwise and violent to parliamentary proceedure.

McKinley denied that the resolution had and purpose to stifle debate. It was intended to concentrate debate on the paragraphs and provisions of the bill. The resolution was not to deny the minority freedom of debate, but to deny to it the right to delay public business by dilatory motions and obstructive tactacs. The House had been given thirty-five hours for general debate and fifteen hours under the five minute debate and it was to be given five days more.
